## Molcajete!

When you are sitting with a pastor in a Mexican restaurant, a sizzling molcajete shaped like a pig filled with an assortment of meats and vegetables in front of you, it's best just to enjoy! May and June saw us resuming our meetings. There were several churches that we interacted with via video and live chat, but it was still sweet. Most of the meetings saw Lena and I apart, though. As you remember from our last letter, Lena was not permitted to travel by her doctors, so I went out alone on our presentations these two months. Fortunately, our good friends the Stoves in Texas, as well as many churches, helped with lodging while I was there. There were also a lot of goodies given to me along the way. I suppose they figured that without Lena, I was going to starve. God was good, though, and I had plenty to enjoy while away from my wife's cooking.

God provided a week's reprieve to be with my wife at the end of May. It was a much needed time together, and kept me going for the next month, where I was in Indiana, Iowa, and Michigan. We had good meetings (and good food), and I was able to go out with a couple of the pastors to visit door-to-door. Though some of the churches were small, it is encouraging to see how God is working and growing churches in this country. It is with God to work through the many or the few. God supplies for us, and He can do so with a church of few just as He can with a church of many. Lena and the baby are doing well! Praise the Lord that none of the doctors' fears have come to fruition! We know that is due to the many, many prayers that have been said on their behalves, and we thank you all so very much for praying for them. Please continue to pray for as normal and as natural of a delivery as possible. We are in the final stretch!

We praise the Lord for two new churches to support us since our last prayer letter! We are getting close to being 25% supported! Please pray that we would reach that level by summer's end.

In Christ,
